One of the "best sellers" of our production line, this model is working in thousands of cinemas all over the world.

8"+1"+constant coverage bi-radial horn.

Now with a complete cloth cover, 15° slant and treble/bass position reversed. This is an evolution of our well known LW 7005 and 7105. With the new 110°x40° horn, the HF reaches the complete audience perfectly.

All of the LW surround speakers are delivered with single metallic support, an optional U bracket or our optional heavy duty Omnimount Support.

As usual with all of the LW surround speakers, these could be painted in any RAL color needed by the customer. This model is delivered assembled in cartoons of two units.
